

## You Need a Tonic

There are times in every woman's life when she needs a tonic to help her over the hard places. When that time comes to you, you know what tonic to take—Cardui, the woman's tonic. Cardui is composed of purely vegetable ingredients, which act gently, yet surely, on the weakened womanly organs, and helps build them back to strength and health. It has benefited thousands and thousands of weak, ailing women in its past half century of wonderful success, and it will do the same for you. You can't make a mistake in taking

## CARDUI

### The Woman's Tonic

Miss Amelia Wilson, R. F. D. No. 4, Alma, Ark., says: "I think Cardui is the greatest medicine on earth, for women. Before I began to take Cardui, I was so weak and nervous, and had such awful dizzy spells and a poor appetite. Now I feel as well and as strong as I ever did, and can eat most anything." Begin taking Cardui today. Sold by all dealers.

**Has Helped Thousands.**

## BIRD PAMPHLET

### WARMLY PRAISED

WILL BE CIRCULATED.

Shows Decrease of Birds in South Carolina—Hornaday Orders 400 Copies.

Ornithologists of the first rank have warmly praised the paper on "Decrease of Birds in South Carolina," compiled by Miss Belle Williams of Columbia and published in Augusta as a bulletin of the University of South Carolina. W. T. Hornaday, director of the New York Zoological park, has ordered 400 copies by the Permanent Wild Life Protection fund and E. W. Nelson, acting chief of the federal bureau of biological survey, has commended the pamphlet as a highly useful work.

Dr. Hornaday writes in part: "I do not see how it can fail to bring about a great reform in the treatment of birds in South Carolina. Such a showing of cold, ugly facts . . . should be sufficient to arouse any legislator to a sense of his duty, to arouse any governor to his and to bring about sweeping practical reforms. If, after the showing of facts . . . South Carolina can remain indifferent to those facts, then the case of the birds in South Carolina is hopeless."

Mr. Nelson says: "I am obliged to you for this publication, which is extremely interesting. It will undoubtedly be of great service in awakening public sentiment and helping toward the protection of birds in your State. . . . A similar publication would be of great value for every State in the country and your publication may help to bring this about."

## SOUTHERN ESTABLISHES FAST LIVE STOCK SERVICE

Atlanta, Ga., Oct. 3.—Cattle, hogs and sheep are now being grown in the South to such an extent that the Southern Railway has found it necessary to establish a daily fast live stock service from points in Western North Carolina, East Tennessee, and Southwest Virginia to eastern and southern markets and to Virginia feeding grounds; and from Alabama points to the St. Louis, Louisville and Cincinnati markets. This is in addition to the daily fast service from St. Louis to Atlanta to handle the inbound movement of horses and mules for the Southeastern and Carolina territory.

Stock from points in Western Carolina, East Tennessee and Southwest Virginia will be consolidated at Asheville and run in special trains to Spencer, where the Southern has provided elaborate facilities for feeding, watering, and resting stock. Stock for the St. Louis market will be concentrated at Birmingham and move to St. Louis on the special live stock trains of the Mobile and Ohio Railroad.

The special service from St. Louis to Atlanta is in connection with the Mobile and Ohio, leaving St. Louis 6:00 P. M., arriving Birmingham 6:00 P. M., next day, leaving Birmingham over the Southern at 7:00 P. M., arriving Atlanta 3:00 A. M., arriving Atlanta 3:00 A. M., giving a through run without necessity for feed stop enroute. From Atlanta special fast service is provided over the Southern to points in Georgia, South Carolina, North Carolina and Florida.

## SAWMILL WASTE TO BE MADE VALUABLE

Seattle, Wash., Oct. 4.—Experiments the University of Washington by Lloyd D. Davis of the department of industrial chemistry and Dr. W. D. Davidson of the University of British Columbia, have resulted in the discovery of a process of distilling sawmill waste by means of which tar, a light oil, acetate of lime and charcoal are obtained. In the new process the gas produced by distillation is carried through a pipe nine inches in diameter and 20 feet long. In the pipe is an electrically charged wire which causes projection of the heavy particles of tar. The tar, 40 gallons for each cord of wood distilled, is of medium consistency and immediately marketable.

The light oil, obtained in a water condenser, is immediately marketable for use in ore refining and the yield is 12 gallons to the cord of wood. Eighty pounds of acetate of lime are obtained from the pyroigneous acid of each cord of wood. Nine hundred pounds of charcoal are the final yield.

## TRUE BILL FOUND AGAINST EDITOR

TRIAL AT GREENWOOD

Anderson Man Involved on Allegation of Sending Obscene Matter Through Mails.

Greenville, Oct. 3.—A true bill was returned against V. B. Cheshire, editor of the Anderson Farmers' Tribune, by the grand jury of the United States district court for the western district of South Carolina here this afternoon, the allegation being that he sent or caused to be sent lewd, lascivious, obscene and filthy matter through the mails.

The article which gave rise to this indictment was printed about three men in Greenville. Cheshire was fined by the city recorder on charges of being drunk and reckless driving. He in a subsequent issue of his paper wrote an editorial which attracted much attention. Assistant Postmaster Easley referred it to a postoffice inspector who in turn referred it to the United States district attorney. The latter referred the matter to the grand jury, a true bill resulting.

Cheshire, officials say, will probably be tried at the Greenwood term of federal court which meets in November.

## Tonoline Is Beauty Aid Announces Specialist.

Mildred Louise Talk of Interest to Women.

As health is a first aid to beauty this story, told by Mildred Louise, beauty specialist, of Boston, Mass., is of unusual interest.

"I can recommend no better health giver than tonoline," said Mildred Louise.

"I was for many months a victim of stomach trouble and nervousness. I had suffered terribly from pains that followed eating. Headaches also would add to my worries. Poor digestion finally brought on nervousness.

"Relief came, however, when I took the advice of several women who said, 'Take tonoline.'

"Not long after I started the tonoline treatment, my patrons began to remind me of the improvement in my condition. And because health is the quickest way to beauty, the improvement was particularly noticeable in my face.

"What tonoline really did for me I cannot say. I am so grateful that I am very willing to recommend tonoline publicly."

Tonoline is a purely vegetable preparation which goes to the seat of common maladies—stomach and kidney trouble, catarrhal affections of the mucous membranes, liver ailments and impurities of the blood—and quickly restores proper action. Tonoline is being explained daily to many people at any good drug store.

Notice:—As tonoline is a wonderful flesh builder it should not be taken by any one not wishing to increase his weight ten pounds or more. Although many reports are received from those who have been benefited by tonoline in severe cases of stomach trouble and nervous dyspepsia, chronic constipation, etc.

## DR. JAS. P. KINARD.

Southern School News: Notable among the changes in school heads this year is the entrance of Dr. Jas. P. Kinard into public school work. For almost twenty years Dr. Kinard has been engaged in college work—first and longest at Winthrop College, as head of the English department; then in the same position at the Citadel, and finally for the last two years as president of Anderson College. Dr. Kinard is this year superintendent of the schools of Newberry. Newberry is his old home and his friends there are more than glad to have him back.

## MORE POLICE NEEDED.

Chicago, Oct. 2.—Mayor Thompson today notified the city council that the 5,000 policemen now employed are not sufficient to guard the city and asked for 1,000 additional men. Approximately 200 square miles are patrolled.

## Grocery Bills Smaller; coffee better and more of it

—that's what comes of using Luzianne Coffee famous for its flavor and economy all over the South. Try the entire contents of a one-pound can according to directions. If you are not satisfied with it in every way, if it does not go as far as two pounds of any cheaper coffee you have ever used—tell your grocer you want your money back and he'll come straight across with it. Write for premium catalog.

## TWO DEATHS IN

### KERSHAW MONDAY

Mrs. Daisy B. Hasseltine, of Rock Hill, widow of the late J. W. Hasseltine, died suddenly Monday afternoon about 5 o'clock at the home of Mr. and Mrs. L. E. Truesdel on East Main street, while sitting in a chair engaged in pleasant conversation with Mrs. Truesdel and Mrs. B. E. Young, who was a caller at the home. When it was noticed that there was something seriously the matter with Mrs. Hasseltine Dr. T. Gregory was hastily summoned and neighbors were called in. She expired while being placed on the bed.

Mrs. Hasseltine came to Kershaw about a month ago to visit relatives in the town and surrounding country, where she had large family connections. Saturday she was ill at the home of Mrs. Mollie J. Hough, but on Sunday she was much better and attended the service at the tent Sunday night. On Monday she went to the home of Mr. and Mrs. Truesdel, where the end came so suddenly. The funeral was conducted from the home by Rev. R. M. DuBose and the body was laid to rest in the Kershaw cemetery about noon yesterday.

Mrs. Hasseltine left surviving a little son, Harry, about eight years of age, a sister, Mrs. D. M. Kirkley, and two brothers, J. Claude Cauthen of Rock Hill, and W. V. Cauthen, whose residence we do not know, and a large number of other kindred.

After a protracted illness extending through many weeks Mrs. Eliza Gardner, widow of the late G. W. Gardner, died at the home of her son-in-law and daughter, Mr. and Mrs. Elmore M. Estridge, on East Richland street Monday afternoon. The funeral service was conducted from the home Tuesday afternoon by Rev. J. Powell Tucker, after which the remains were interred in the Kershaw cemetery.

Mrs. Gardner was about seventy years of age and was a consistent member of the Baptist church and during her long illness has borne the confinement and suffering with Christian resignation and fortitude. She was kindhearted to neighbors and friends and was devotedly attached to her children; and possessed a friendly interest in mankind generally.

Mrs. Gardner left surviving the following children: Four daughters, Mrs. Reece Roberts of Rock Hill, and Mrs. E. M. Estridge, Mrs. L. A. Baker and Mrs. Wm. Hegler, of Kershaw; and two sons, O. C. and E. L. Gardner, the latter being at this time quite ill.—The Era.

## STORM MOVES NORTH.

Disturbance Off Georgia or South Carolina Coast.

Washington, Oct. 3.—Radio reports tonight to the weather bureau indicated a disturbance about 200 miles off the Georgia or South Carolina coast apparently moving northward. The storm will cause northerly gales Tuesday off the Carolina and Virginia coasts and advisory storm warnings were ordered up tonight from Norfolk to Charleston.

## Malaria or Chills & Fever

Prescription No. 666 is prepared especially for MALARIA or CHILLS & FEVER. Five or six doses will break any case, and if taken then as a tonic the Fever better not return. It acts on the liver better than Calomel and does not gripe or sicken. 25c

## FARMERS' MUTUALS

If you are not insured, now is a good time to insure. After the wet spell the roof of the house will be dry and may burn from a spark and fires frequently occur from Lightning.

## NEW YORK RESTAURANTS

### ADVANCE EVERY PRICE

New York, Oct. 3.—The rising cost of food was impressed upon thousands of citizens today by the action of the largest dairy restaurant here in advancing prices. This corporation, which owns a chain of lunch rooms in New York and other cities, added five cents to the prices of all the staple dishes.

Bacon and eggs and ham and eggs now cost 30 cents instead of 25; a small steak is 30 cents instead of 25; plain omelet has jumped 15 to 20 cents. Even corned beef hash has advanced from 15 cents to 20 cents. Eggs are five cents an order higher, no matter how prepared.

All pies from now on are 10 cents a cut, but instead of seven cuts to the pie there will be six. In the past only the fresh fruit pies such as peach and berry were sold on the six-cut, ten cent basis.

The wholesale price of sugar advanced from 6 3-4 cents to 7 cents a pound today and the retail price from 7 to 8 cents. The increased demand resulting from the war was given as the reason, although it was asserted that 427,185,758 pounds of underfined sugar is held in government warehouses in this city and that the crops of sugar in this country and Porto Rico are the largest ever known.

## NOT ENOUGH CHILDREN

ever receive the proper balance of food to sufficiently nourish both body and brain during the growing period when nature's demands are greater than in mature life. This is shown in so many pale faces, lean bodies, frequent colds, and lack of ambition.

For all such children we say with unmistakable earnestness: They need Scott's Emulsion, and need it now. It possesses in concentrated form the very food elements to enrich their blood. It changes weakness to strength; it makes them sturdy and strong. No alcohol. Scott & Borne, Bloomfield, N. J.
